

Selvarajan Karthigan

Quality Assurance Engineer

📧 Karthigan17 | 🌐 Selvarajan-Karthigan | ✉ karthigan1796@gmail.com | 📞 +94777490151

Objective

Detail oriented Quality Assurance Engineer with over 4 years of experience delivering robust manual and automated testing strategies across Web, Android, and iOS environments. Proven expertise in testing end to end user features (loyalty rewards, NFC/QR flows, bookings, and API layers) using modern tools like Cypress, Selenium, Postman, and Appium. Adept at database validation, user behavior event tracking, and leveraging AI driven productivity systems to maximize software release quality.

Skills

Automation Testing: Cypress (Web), Selenium, Appium (Mobile), Postman (API), JMeter, JUnit
Mobile & Cross-Platform: Android Studio, ADB, Xcode, TestFlight, BrowserStack
Test Management & Diagnostics: TestRail, Azure DevOps, Jira, Chrome DevTools, PostHog (Event Tracking)
Databases & Environments: SQL, Supabase, Git, GitHub, Unix Shell, VS Code, IntelliJ IDEA
AI Automation (Second Brain Concept): Craft Agent, Pencil, Claude, Minimax, Notion, AI Suggestion Scrap Testing
Programming Languages: Java, JavaScript, TypeScript, Python, C, C++, HTML, CSS, PHP

Experience

Unicom SD (Pvt) Ltd Jaffna, Sri Lanka
Software Quality Assurance Engineer March 2024 – Present

Associate Software Quality Assurance Engineer June 2022 – March 2024

- **Projects: Poddle & Bubltown** — Conducted full cycle manual and automated validation for customer and business software applications scaling Web, Android, and iOS channels.
- Tested specialized transactional vectors including **loyalty rewards, NFC/QR flows, referrals, reviews, offers, bookings, and delivery features**.
- Engineered reliable web automation scripts with **Cypress** and functional tests with **Selenium**.
- Maintained clear test cases and reported execution runs inside and Excel; tracked bugs inside **Azure DevOps**.
- Performed programmatic API tests via **Postman**, database validation via **SQL / Supabase**.
- Isolated platform exceptions across simulated layouts using **Android Studio (ADB), Xcode (TestFlight), and BrowserStack**.
- Utilized **Chrome DevTools** to analyze real time network interactions, inspect UI elements, and trace runtime bugs.

Samuvel Gnanam IT Centre Jaffna, Sri Lanka
Intern Software Quality Assurance Engineer February 2022 – May 2022

- **Project - Defect Tracker System:** Formulated structured user story parameters and tracked defect life cycles inside **Jira**.

Education

University of Moratuwa July 2025 – Present
M.Sc. in Artificial Intelligence (Reading)
Uva Wellassa University of Sri Lanka January 2018 – December 2022
B.Sc. (Hons) in Computer Science And Technology GPA: 2.48
Jaffna Hindu College 2007 – 2015
GCE Advanced Level (Mathematics, Physics, Chemistry) 2016 / B2C

Research

- Diet Recommendation with Machine Learning | Python, MySQL, CNN**
- Engineered an ML system to monitor dietary profiles, dynamic target metrics, and custom menu calculations optimized for diabetic health requirements.
